

WELCOME

Jakob Sawyer serves as Visual Technician for the upcoming marching band season, bringing a variety of competitive experience and a deep connection to the Clover community. A proud Clover High School alumnus (2019-2023), Jakob's time in the program was defined by leadership and excellence, serving as Marching Brass Captain and earning back-to-back WGI World Championship titles in 2022 and 2023. His performance resume extends into the independent circuit, having marched with Civitas Independent from 2024-2026 and currently preparing for the 2026 season with the Blue Stars Drum and Bugle Corps. Jakob's accolades include a 2nd place finish at the National Trumpet Competition and being named Clover's Most Outstanding Marcher multiple times. As a recent graduate, Jakob offers a unique ability to relate to current students, helping bridge the gap between high-level technical instruction and the evolving culture of today's marching arts activity. He is currently pursuing an Associate's Degree in Electrical and Computer Engineering at York Technical College. We welcome Jakob back to the staff and the Charger Family!
